THEIR ADDRESS TO THE UNWASHED

They Plead the Baby Act—And Claim that poor old Mrs. Morey and others ... as weak Outwitted them and ... them into a great Crime—the ... poor Fellows Disclaim Jurisdiction over the Fraud City.

SPECIAL TO THE OREGONIAN.

NEW YORK, Nov. 12.—There was no quorum at the democratic national committee rooms to-day to transact the unfinished business, and chairman Barnum, Scott and Prince adjourned till this evening.

NEW YORK, Nov. 12.—The executive committee of the national democratic committee had a private meeting to-night which was not over until nearly midnight. Members present: Barnum, Prince, Hewitt, Wm. M. Armstrong of Ohio, and William L. Scott of Pennsylvania. Hiram Atkinson, chairman of the democratic state committee of Vermont, acted as proxy for Bradley B. Smalley, of Vermont; Chas. J. Canda, treasurer of the national committee, as proxy for Austin W. Sulloway, and Wm. C. Whitney, corporate counsel of this city, as proxy for Outerbridge Horsey of Maryland. Barnum presided. The committee issued the following address:

In response to inquiries, the national democratic committee makes the following statement in reference to the so-called Morey letter:

First—Neither the committee or any sub committee thereof has ever taken any action in reference to the letter.

Second—That it was first called to the attention of the chairman of the committee on the night before its publication in the Truth on the 20th of October.

Third—That the chairman thereupon requested Smalley, a member of the committee, to examine the letter; but permission to do so was refused at the office of the Truth.

Fourth—That no member of the committee ever saw the letter or any copy or portion thereof until after its publication, or was in anywise concerned therein, or gave any advice in reference thereto.

Fifth—That Hart, publisher of the Truth, brought the original letter to headquarters, No. 128 Fifth avenue, on the afternoon of the 20th of October, where it was seen for the first time by any members of the committee and other persons not members. All those who were familiar with the handwriting of Gen. Garfield came to the conclusion that the letter was genuine.

Sixth—The committee decided to purchase a reasonable number of electrotype plates of the fac simile which had already been prepared by Truth.

Seventh—That no denial having come from Gen. Garfield, the authenticity of the letter, notwithstanding the telegraphic demand of the New York Herald, and the very sharp leader in that paper, the committee decided to give out the electrotype plates which was accordingly done. The propriety of this action was not doubted by the committee, as the letter seemed to be in harmony with Gen. Garfield's views upon the subject covered by the letter, gathered from public records of undoubted genuineness.

Eighth—That at the first complete denial was not published until four days after the original publication in Truth, and to this denial unsupported by any other evidence, the committee in view of Gen. Garfield's connection with other scandals attached no weight.

Ninth—That, therefore, when evidence was offered to show that Morey was a real person and not a myth, the committee called for its production as they were bound to do in order to arrive at the truth.

Tenth—That if the letter has been forged, or any fraud committed in reference thereto, or any false evidence been given, it has been done without the knowledge, consent or privity of the committee or any member thereof.

Finally, the committee approves of all honest measures to punish any and all persons who have committed any violation of law and have no interest in this matter but to arrive at the very truth of the affair. That there should be doubt as to the authenticity of the letter, is largely due to the failure of the prosecution to put Gen. Garfield on the stand. By order of the committee,

WM. H. BARNUM, Chairman.

FREDK. O. PRINCE, Sec'y.

The following resolutions offered by Scott and seconded by Armstrong, were passed:

WHEREAS, Allegations of fraud in various states and especially in the state of New York, have been brought to the notice of this committee,

Resolved, That the committee has no jurisdiction over local violation of election laws, but recommends that the several democratic committees of states where those frauds have been committed investigate them with a view to the exposure of violations of law and their prompt punishment. In relation to the duties of the courts or congress in the premises this committee is not and cannot be charged with any responsibility.

A resolution was passed tendering the thanks of the committee to W. H. Barnum, chairman; to the advisory committee and to the officers of the committee for the efficient and faithful manner in which they performed their respective duties.

NEW YORK, Nov. 12.—Assistant District Attorney Bull this evening, when leaving his office, said there were no new developments in the Chinese letter case and that no more arrests were contemplated or would be made to-night. The grand jury will not meet again until Monday and it is said that no indictment will be presented before that day.

Other reports are that indictments have been presented against several prominent democrats and also against some newspaper men. Justice Morgan, who took the confession of both O'Brien, alias Lindsay, and S. S. Morey, stated to-day that no newspaper has as yet published the full confessions, which implicate several persons, whose names are for the present withheld.

Judge Davis' decision in the case of Philp will be given to-morrow morning.

The Degraded Democrats, Hewitt et al.

CHICAGO, Nov. 12.—The Times' New York special says: Hope is very generally expressed here that the whole conspiracy to foist upon the country a forgery as a desperate means of contributing to the defeat of Garfield will be fathomed to the bottom, and the responsible parties, no matter what their position may be, adequately punished. It will be a warning to rascals who might be disposed to employ similar expedients in future political campaigns. Republican journals now have good cause to give Abram S. Hewitt some pretty hard rubs for his unfortunate endorsement of the forgery, and they are improving the opportunity to the utmost.

GENERAL POLITICAL NEWS.

A Democratic Report.

CHICAGO, Nov. 12.—Secretary Burch returned from Tennessee and believes the democrats will elect a United States senator from that state. He thinks the two wings of the democracy will unite to prevent the election of a republican.

The Other Side.

The Evening Star has a Nashville special however which says it is rumored that two democrats of the senate promised to vote for Horace Maynard and one more vote would elect him.

The Matter of Contests.

CHICAGO, Nov. 12.—The Inter-Ocean's Washington special says it is proposed by republican congressmen who have been here since the election to urge a different plan than heretofore in settling contests, and in case one man is unseated on account of fraudulent count his opponent may be seated, but in case the contestant makes out a case of bulldozing and intimidation it is thought the best plan will be to unseat the sitting member found to have acquired his seat by such means, but not to seat his opponent but to send the matter back to the electors.

Maryland Official.

ANNAPOLIS, Nov. 12.—The official vote of the state for presidential electors is, Hancock, 93,706; Garfield, 78,515.

Alabama—Official.

MONTGOMERY, Nov. 12.—The official vote of Alabama, with four counties to hear from, is: Hancock, 88,309; Garfield, 53,194, Weaver, 4551. Counties to hear from will add about 2000 to Hancock's majority. The vote of the state was very light, more than one third not voting.

A proposition is pending in the present legislature to change the time of holding the election to the same date as congressional and presidential elections.

Minnesota's Vote.

ST. PAUL, Nov. 12.—Garfield's majority is now within 400 of 40,000, and will probably exceed that figure when the four remaining counties are heard from.

Pennsylvania Official.

HARRISBURG, Nov. 12.—The following is the official vote for president in Pennsylvania: Garfield 444,704; Hancock, 407,428; Weaver, 20,668; Dow, 1939, Phelps, 44.

The Banner State.

DES MOINES, Nov. 12.—The State Register has official returns from the ninety-nine counties in Iowa. Following is the result: Garfield, 183,951; Hancock, 105,224, Weaver, 31,590; scattering, 470. Total vote cast, 321,832, an increase of 30,953 over 1876. Iowa gives Garfield 78,125 majority over Hancock, which is the largest majority it has ever given any man.

A Republican State.

SPRINGFIELD, Ill., Nov. 12.—All state bonds are called in, interest to cease after January 1st. The state will then be out of debt and have $100,000 in the treasury. This is the result of continued republican administration in the state.

THE AGITATION IN IRELAND.

The Peasantry on the Alert—British Troops Protecting Farm Hands—A Land Agent Shot Dead—Military Ordered to Use the Bayonet if Necessary—A Perilous Crisis.

SPECIAL TO THE OREGONIAN.

DUBLIN, Nov. 12.—Orangemen composing the Boycott relief expedition were hooted nearly the whole way from Claremorris to Ballinrobe. They took up quarters in the barracks for the night. The barracks were guarded by troops. The expedition started for Boycott farm at noon to-day, guarded by ... infantry and a squadron of hussars, one hundred infantry and a squadron of cavalry ... last night near Boycott's house. Boycott has announced his intention of quitting Ireland. There is a considerable lull in the excitement at Ballinrobe to-day. During the night 200 more troops arrived. Boycott is hunted and pursued, and kept a prisoner in his dreary house. Nobody dared sell him bread ... and he is deluged with communications of anything but reassuring tone, but remains more defiant than ever. The Orangemen whom are coming to harvest his crops will be a real affliction to him, or he has no place to lodge them and certainly nothing to feed them with.

When the Orangemen arrived at Lough Mask Boycott was seen standing near the house with a rifle in his hands. Within two hours after their arrival a number of men commenced work on the farm. It is estimated a week or ten days will be required to do the work if machines are brought from Dublin in reasonable time. The Orangemen will thresh the corn preparing it for market. The hussars, who acted as escort for the Orangemen, have returned to Ballinrobe. The other troops remain. The baggage and implements of the Orangemen arrived in the evening. They were not interfered with.

LONDON, Nov. 12.—The Times says some prominent member of the land league followed the Orangemen on the car, but left it at Boycott's gate. Several shots were fired at the barracks in Ballinrobe where the Orangemen slept Thursday night but nobody was hurt. The military were ordered to repel any attacks at the point of the bayonet. The land leaguers, however, advised the people to be quiet. As long as the Orangemen remain at Lough Mask the garrison will be 100 infantry, 60 cavalry and 50 police. A resident magistrate will constantly attend.

BALLINROBE, Nov. 12.—Though few men were seen on the line of march, it is said that scouts were on every hill, and pains were taken to identify Orangemen. The expedition is encamped in tents in front of Boycott's house.

Embarrassed by Irish Affairs.

LONDON, Nov. 11.—The Times' Rome special says it is well known in the Vatican circles that the Pope is much embarrassed about Irish affairs. He fully understands it is not a question between Catholics and Protestants, but between the friends of order and anarchy. He openly disapproves an Agrarian government, and sincerely desires to assist the English government if possible. He is well aware that he is only hearing one side of the case, and feels were he to break the silence he might, in seeking good, produce a contrary result, through his imperfect knowledge of affairs.

Land League Notes.

CORK, Nov. 12.—A meeting convened by the mayor of this city has opened subscription lists for Parnell's defence.

DUBLIN, Nov. 12.—All laborers in the relief expedition are tenant farmers or sons of tenant farmers. Provisions have been sent with them for 60 men for eight days. Orangemen have expressed a willingness to stay at Ballinrobe after the crops have been cut and work for Boycott.

DUBLIN, Nov. 12.—Before the start crowds of people were in front of the gates groaning and hooting. The uproar in the principal street was tremendous. A steward to Col. Cooper, of Dunboden, in Mullingar, county of West Meath, was shot and wounded in two places by an unknown youth.

A Land Agent Killed.

CORK, Nov. 12.—Wheeler, a land agent, has been shot dead near Oola, county of Limerick.

Arrival.

QUEENSTOWN, Nov. 12.—The Channel fleet has arrived.

BLAST OF DEATH.

Explosion in a Canadian Coal Mine—Thirty-four Men and Twenty-nine Horses Sent to Instant and Terrible Death—Excitement and Horror.

SPECIAL TO THE OREGONIAN.

HALIFAX, Nov. 12.—About 6:30 this morning an explosion of gas occurred on the south side of Ford pit, Albion mines. All the miners were at work in the different borders. The explosion was so terrible as to sweep across to the other side of the pit, killing men and horses within reach. Almost all the men on the north side will be saved, while all at work on the south side have been lost. At least sixty are missing. Firemen have been brought up and will likely recover. Probably forty are shut up within the fallen coal in the south side. The accident was presumably caused by some miner firing a shot in a forbidden part of the workings.

HALIFAX, Nov. 12.—St. Clerton now reports only thirty or forty men in the part of the mine on fire. All who have come up will probably live. A working party is down, but there is not much hopes for the safety of the 30 or 35 known to be in the mine. Another explosion is expected every moment.

HALIFAX, Nov. 12.—Messrs. Hudson, Gregor, Simpson and Pool, with other volunteers, have been down into the pit at Stellarton to which the explosion occurred this morning, and have come up again. They found it impossible to explore the south side for any distance, on account of the afterdamp, there being no air through, as all the doors have been blown down by the blast. They found some bodies, but could not identify them. All the horses in the pit, twenty-nine, are dead. The number of men still in the pit is said to be forty-four. It is feared another explosion will occur this afternoon when the pit gathers gas again. Work is totally suspended at all the collieries in the county, and miners have come to the scene of the accident in great numbers, but are powerless to render assistance, on account of the precarious condition of the pit. It is not known how the fire originated. None from the side where the accident occurred are alive to tell the tale. Thirty-three of the missing men are married, and most of them have large families.

GARFIELD AND ROSECRANS.

A few days before the election Gen. Rosecrans in an interview with a reporter in San Francisco spoke with great bitterness against Gen. Garfield, pronouncing him "a fraud, an unmitigated fraud." Mr. W. F. G. Shanks, who is thoroughly acquainted with the career of both, and who will be widely remembered as a writer of valuable war sketches, prints a letter in the New York Tribune of which the following is an extract:

Rosecrans' hopes were ruthlessly blasted on that September Sunday of 1863 when he was defeated at Chickamauga and fled to Chattanooga to telegraph the president—in haste that he bitterly repented afterward—that his army was routed and in full retreat. That same day opened for his chief of staff the career which is now about to culminate in his election to the presidency. It is a singular fact that every act of Rosecrans that day was to his own great disadvantage; all of Garfield's in the same action were to his credit. The battle, which was defeat to both, was the downfall of one the elevation of the other; the one clutched only disgrace, the other grasped only honor from the same events. Rosecrans unhappily continued his flight to Chattanooga. Garfield refused to go to the rear, and at great personal risk rejoined the troops still fighting at the front. Rosecrans sat the day out wringing his hands and telegraphing doleful tales to Washington, while Garfield on the field of battle wrote cheering dispatches, which showed the true story, that Thomas held his own and covered the retreat, and that all was not lost. Rosecrans was relieved from duty; Garfield was promoted major general and called to Washington.

The Rotten Borough.

Nevada ought never to have been admitted as a state. This journal has so expressed itself many times for a dozen years past and the Nevada press has often resented the statement. The fact is there is nothing of Nevada but a nearly exhausted mineral lode located in a desert. The population of the state will never be larger than it is now—say about 50,000. Outside of a few mines controlled by speculators the state has no resources, and the boss of the mines is always the boss of the state. The California press is now beginning to talk rationally about this pocket borough. We quote from the Alta:

That rotten borough called the state of Nevada, ... the American political ... during ... election ... [illegible] ... as had never before been equaled in this country.

A professor of theology in Holland has lately delivered himself of the following views: As a book of religion there is no more room for the Bible. The Bible makes religious life scanty and unsound. The tradition of the church is continually supported and fed by the Bible. The notions of man's guilt before God, of remission of sin by Jesus's death on the cross, of eternal bliss for the righteous, of eternal woe for the unrighteous—all these notions, according to our views so untrue, so ruinous to a pure religious development, are again and again learned from the Bible. We moderns have a number of partisans among the school-teachers. We are thus able to exert a strong influence in education.

Electric Light.

SALT LAKE, Nov. 12.—The Ogden city council this afternoon, unanimously adopted a proposition for lighting the city by electric light. The manner of lighting is similar to that of Wabash, Indiana, the diagram to be placed on the dome of the court house and an elevation of 200 feet will be had, from which four lights of 3000 candle power each, guaranteed to abundantly illuminate a mile in diameter. Ogden is the first city west of the Mississippi to adopt the electric light.

The Flooded Mines.

VIRGINIA, Nov. 12.—It is now deemed certain that the accident at Jacket will flood the lower levels of both Belcher and Crown Point, as the Belcher pumps had before all the water they could handle and the Imperial is not in a condition to help. The probabilities are that no more prospecting will be done in these mines till Jacket's pumps are running again which will be a month hence.

A RARA AVIS.

A Democrat Found who has a Conscience—He Denounces the Chinese Letter Forgery.

The Washington Sunday Capital, an outspoken democratic paper of the most pronounced character, has an editorial article on the fraudulent Chinese Garfield-Morey letter from which we make the following extract:

"But this letter is clearly not a part of the literature which our friend Jas. A. Garfield has from time to time spread over his beloved country. It contains for one thing a phrase which Garfield would never have thought of framing, and for another thing there is a defect in its orthography which to any one at all acquainted with him makes the idea that he wrote it ridiculous. The phrase to which we refer occurs in the first sentence, where Garfield is made to say 'the question of employees,' etc. Now, if James A. is anything, he is an artist in the employment of language either on his legs or at his desk. No man now in public life is so thorough and scientific in his mastery of the King's English as Garfield. Indeed we have often marveled at the chastity, even severity, of the style that marked his impromptu utterances upon the floor of the house when they came into the print of the Record. No master of the English language would say 'the question of employees.' This phrase is not only meaningless, but it is awkward and uncouth. It is the phrase of a bungler, of a novice, of a man unaccustomed to studious selection of forms of expression. The whole sentence is: 'I take it that the question of employees is only a question of private and corporate economy, and individuals or companies have the right to buy labor where they can get it cheapest.' This is the exact form of the published fac simile. We are familiar enough with Garfield's style to be able to indicate the form into which he would naturally put such a proposition. He might have said: 'I take it that the relation between employer and employee is a question,' or, preferably, he would have said: 'A matter of private or corporate economy,' etc. But we are sure he never would have thought of using so crude and so unmeaning a phrase as 'the question of employees.' Again, the fabricator of this alleged letter so made Garfield spell companies with a 'y,' thus: 'Companys.' We do not think any further analysis is required. We are astonished at the stupidity of the democratic committee in lending its countenance to the circulation of such a rank fraud on its face. But hold on—we are not astonished at any stupidity of the democratic committee. Maybe Barnum himself spells companies with a 'y.'"

"POOL SELLING" BEFORE ELECTION.

Verification of Dispatches Sent by the Associated Press.

It may be remembered that on the morning of the late election our dispatches from the east reported "pools" as selling in eastern cities largely in favor of Garfield, the night before. These dispatches were denounced as "associated press lies." Eastern journals are now arriving with verification of their statements. We have the Philadelphia Times, a Hancock paper, the number issued on the morning of the election. We clip the following from the second column of its fourth page:

Pool-selling on the presidential election began at 1 o'clock yesterday afternoon at McGeigan's International Exchange, on Sansom street above Eighth. The room was packed, including the galleries, where the chairs were thickly coated with dust from long disuse. The first offer was $25 to $15 in favor of Garfield. The crier shouted the terms of the pool for five minutes, but got no takers. Then he began again: "I've sold Garfield for $100, how much for Hancock? How much for Hancock, with Garfield sold for $100? Who'll give $50 for Hancock and Garfield sold for $100?" There was no response, and then there was an offer of $50 on Hancock to $100 on Garfield, which was snapped up in an instant. A minute afterwards $100 to $50 in favor of Garfield was offered, but there were no takers; $150 on Hancock to $250 on Garfield was offered but not taken, the highest bid on Garfield being $205. The following propositions and pools sold will indicate the feeling in the pool room during the afternoon:

$50 to $35 that Garfield carries New York state. No takers.

$50 to $45 that Hancock carries New Jersey. No takers; $40 offered.

$50 to $... that Garfield is elected. No takers.

$50 to $25 that Garfield will have 10,000 more votes in New York than Hancock. No takers.

$50 to $75 that Garfield has 17,... more votes in New York than Hancock. Sold.

$100 to ... Hancock to $... on Garfield. Sold.

$30 to $60 that Hancock gets the electoral vote of New York. Sold.

$50 to $25 that Garfield carries New York state. Sold.

$... even that Garfield has 20,000 majority in Pennsylvania. No takers.

$... to $70 that Garfield has ... more votes in New York state than Hancock. Sold.

$25 to $15 that Garfield has 30,000 more votes in Pennsylvania than Hancock. No takers.

$50 to $25 that Garfield will be elected. Sold.

Three even that Garfield won't have 50,000 more votes in Pennsylvania than Hancock. No takers.

$25 even that Garfield has 25,000 more votes in Pennsylvania than Hancock. No takers.

$25 to $... that Garfield has 30,000 more votes in Pennsylvania than Hancock. No takers.

$20 to $15 that Hancock will carry Indiana. No takers.

$150 to $125 that Garfield will carry New York, New Jersey and Connecticut. Sold.

In the evening most of the betting was on New York, and the odds in favor of Garfield's carrying the state had stiffened somewhat, even money being freely offered that Garfield would have 15,000 majority in that state and three being but few takers. The following are specimen offers and pools sold:

$100 to $... that Garfield will be elected. No takers.

$100 to $80 that Garfield don't have 20,000 more votes than Hancock in New York. No takers.

$50 to $20 that Garfield will carry New York. Sold.

$100 to $75 that Garfield will not have 20,000 more votes in New York than Hancock. No takers.

$50 to $25 that Garfield don't come to this city with 5,000 majority. Sold.

$100 to $50 that Garfield will be elected.

FROM ASTORIA.

REGULAR CORRESPONDENCE OF THE OREGONIAN.

ASTORIA, Nov. 11, 1880.

Notwithstanding the fact that the property owners and people of Astoria generally are somewhat disappointed that ... now no public works have been inaugurated in this vicinity such as the construction of a breakwater for the permanent improvement of the Columbia river bar, or the commencement of active operations by some one company or the other (and they would not care which) toward the building of that railroad which they feel sure must eventually have their city for a terminus, they are not disposed to sit idly down or stand listlessly on the street corners with their hands in their pockets. On the contrary, in strolling through our city and its suburbs during working hours our ears are greeted on all sides with the sounds of busy labor.

Upper Astoria particularly shows signs of thrift and improvement. Another joint stock company cannery is now in course of construction there, and will be ready for business next fishing season. It is called the Occident Co., and the stockholders are mainly all Russian Finns, all practical fishermen.

In addition to the numerous canneries another branch of industry has been established there which though commenced in a small way and in a very unassuming manner, has now reached such proportions as to demand the erection of a spacious factory and the introduction of a large amount of first-class machinery.

We allude to the boot and shoe factory started last ... and owned by Mr. C. Leinenweber and Captain ... Brown. Desiring to inspect the factory and witness the modus operandi by which a piece of tanned leather is converted into a fine French calf boot, your correspondent ventured in and was courteously received by the gentlemanly foreman, Mr. E. D. Corson, who is well known in Portland, as he founded the first Oregon boot and shoe factory in your city in 1868. Leinenweber & Co's factory building is 124x60 feet. Twenty four men are at present employed in manufacturing boots, etc., and twelve more in the tannery adjoining. This force is working full time on orders from various parts of the state and the adjoining territory. Mr. C. stated that one Portland house alone lately ordered made 500 cases of fine boots.

Previous to our visit we were under the impression that only the coarser grades of boots and shoes were manufactured here. We were, however, soon undeceived when we saw operatives at work on some of the finest kinds of calf boots and congress gaiters. To supply the demand however, a very large number of what are called fine ... kip boots with heavy tap soles are specially made for loggers and farmers. These are all made by hand, no machinery whatever used in their construction.

Then on the other hand, to suit the more fastidious we were shown what was termed the Victoria boot, made from imported French calf; this was a very fine boot and Mr. Corson said that only workmen of long experience were employed in the making of it. We had first supposed that all or nearly all the leather used in this factory was of home manufacture, but here again we were mistaken. But a few days before our visit Leinenweber & Co. received a supply of leather from New York, and Santa Cruz, California, invoiced at nearly $7000.

If any of our dealers are desirous of patronizing and giving the preference to home manufacture, have any doubts in regard to the good quality of stock used in Leinenweber & Co. factory, we think they may dismiss them. We were assured that the proprietors guarantee that no misrepresentations are made to customers in this respect, as they are anxious to fulfill every obligation on honor, to the very letter, and are determined to do so.

As Mr. Corson, the working superintendent, remarked, "This is their platform, and there will be no deviation from it." Mr. Corson has had twenty years' experience in the business on this coast, and he asserts that he never ... stock in California of kipe side-leather and calf skins finer than the stock now in use Leinenweber & Co's factory, of their own tanning, and he cordially invites any expert to come and compare their home manufactured stock with that of any tannery on the Pacific coast. Your correspondent's extended notice of this local industry encroaches on your valuable space, but we venture to send it, knowing that THE OREGONIAN has always been a friend to progress in the right direction and an advocate of home manufactures.

Joe Fox, the scapegrace boy who tapped the fire bell creating a false alarm, was sentenced by Police Judge Bauey to pay a fine of $40, and in default 20 days' work on the streets with ball and chain.

A STATEMENT IN REPLY.

EAST PORTLAND, Nov. 12, 1880.

Editor of the Vindicator:

My attention having been called to an article which appeared in your paper of last week, by which one W. W. McGuire, one of the publishers of said paper, and acting justice of the peace for East Portland precinct, attempts to excuse himself for having peddled bogus republican tickets on last election day and denies having done so. I, in response to his request herewith furnish him with some of the proof he calls for. Mr. Henry Lang, a well known gentleman who resides on the "slough," is ready to make affidavit to the following statement: "I saw Mr. McGuire give one of the bogus republican tickets to a stranger on the afternoon of election day. I saw the ticket and told the man it was bogus. He reported that he would use a good one. He asked McGuire for a ticket, McGuire gave him a democratic ticket at first. The stranger then asked for a republican ticket. McGuire then gave him the bogus ticket. I know Gilham, ... who ... to the man to whom McGuire gave the ticket above referred to." Now we take what Mr. S. J. Tarlington has to say of the matter at issue. "When I went to the polls to vote, I inquired for a ticket. W. W. McGuire said, 'I have tickets,' and showed me some democratic tickets. I told him I did not want them, he replied, 'Well, here I have another kind,' and showed me republican tickets, with ... W... name ... on them."

I then told him, I would be ashamed to be caught peddling such tickets. He replied, 'but, that's legitimate. That's business. All is fair in war. I know of several of them that are doing it.' So much for the statement of the gentlemen who are well known in this and county ... and who are ... every body acknowledged to be trustworthy and reliable. Now for the last he ... which I ... will fully myself.

"I, in the afternoon, after seeing one of the bogus tickets, I went to ... and told him that I had heard that he was ... ... bogus tickets, he did not deny it, but after a while he came round and ... gave one ... them, and ... it, he asked me for it. ... business and I will ... two dollars that ... in the box." ... all that I ask is that the ... to take these statements by which Billy ... ... proven to have gone down to work that is certainly beneath the dignity of a gentleman, and then compare them with the ... published last week, and I am of the opinion that said public will ... that the peddling of bogus tickets, ... they were is ... any ... that ... guilty of during this ... If he ... he ... in the ... by ... that stealing was not ... for the ... Mr. Wallace's ... him ... If he wants any more let him call on

AMUSEMENTS.

The Emilie Melville Opera Company.

The Royal Middy is a cheerful, jolly composition abounding in light, buoyant music. The libretto is little more than a series of pretty, good, indifferent and bad, with a preponderance of the latter. The plot is simple and has the customary series of absurd impossibilities. The leading characters were excellent hands. Miss Melville as Fanchette, a Parisian grisette, afterwards a royal middy, has a clear, sweet voice, which she uses well. Her whole character is piquant, vivacious and enthusiastic acting. Mr. ... as "Don Januario" made much out of a difficult ... part and was ably seconded by his inseparable companion, a conventional stage darkey (Mr. ...), who ... up in the ... business. Mr. Hatch, the tenor (Don Lamberto) has a well modulated voice of small compass. A little more life in the love action will improve his efforts. Miss Plaisted has a very pleasing, light voice, and acts with exceeding grace. The choruses, every one of them, were well balanced. The best portions of the opera are crowded into the last numbers of the second act: a concerted piece, "To Our Flag," a splendid quintette, "The Duel," and the closing tourneum at ... The latter is a decidedly pretty and spectacular, semi-operatic feature and closes with a well arranged tableaux.

The audience filled every seat in the New Market, orchestra, dress circle and gallery, and was discriminating in its applause, which was frequently bestowed. "The Royal Middy" will be repeated this afternoon and evening.

NEWS NOTES FROM SALEM.

REGULAR CORRESPONDENT.

SALEM, Nov. 12, 1880.

Hon. C. B. Watson, presidential elector elect, was in the city yesterday.

Oregon ... are making arrangements for their annual thanksgiving hunt.

The election returns are coming in rapidly and will be canvassed at an early date.

E. L. Campbell, formerly of Portland, has entered into the insurance business in this city.

C. ... J ..., Esq. has rented the Commercial hotel and is thoroughly overhauling the same.

Lots of money changed hands here on the recent election and the democracy are "four time losers" all around.

The secretary of state is copying the laws passed at the last session of the legislature for publication by the state printer.

Jno. W. M... has been elected member of the board of fire-delegates from Tiger Engine Co. No. 1, vice E. Cann, resigned.

The county school superintendents meet in this city to-day for the purpose of deciding what text books shall be used in the public schools during the ensuing four years. But few changes are anticipated.

For the benefit of your readers we would remark incidentally that the interest bill passed by the last legislature having no emergency clause attached, does not take effect until ninety days after the close of the legislature.

The following notaries public have recently been appointed by his excellency the governor: Seneca Smith, James E. Aikenald, Levi Anderson, of Portland; H. F. Meyer, of Sheridan; G. W. Dolan, of Silverton; Geo. H. King, of La Grande, and F. M. Miller, of Lebanon.

Archbishop Seghers of the Catholic church, is making his official visitation to this mission, and was on Thursday evening last tendered a reception at the church, P. H. D'Arcy, Esq., delivering the address of welcome. The church was elaborately decorated, and the occasion was one of much enjoyment to our Catholic citizens. The bishop will remain here over Sunday.

The governor has commuted the sentences of the following prisoners: ... John Lynch, sent from Multnomah county Jan. 18, 1879, for two years for larceny; Nov. 10th, John Hughes, sent from Wasco county June 30 1877, for four years for perjury; Nov. 8th, James Shea, sent from Grant county June 1, 1878, for three years for larceny; cause in all cases above noted uniform good conduct and terms of sentence being nearly expired; Nov. 4th, J. H. Weston, sent from Clatsop county Feb. 10, 1880, for two years for larceny, sentence commuted on condition of taking ship for England and not to return to this state during the period for which he was sentenced to imprisonment.

Politics are quieting down; our citizens are becoming interested in our approaching municipal election and conventions will soon be in order to nominate officers. Jno. W. Crawford, Esq., is the only candidate we hear mentioned for mayor, and he would prove acceptable and make a splendid officer. His election, however, would deprive us of his services as chief engineer of the fire department, where he has proved the right man in the right place. C. W. Lowe and G. A. Sebrede are candidates for the recordship, while M. G. Harbord, William Barker, W. J. ... and Ira Erb are building their friends for support as city marshal. Capt. F. J. Babcock, the present city treasurer, appears to have no opposition for that office for the ensuing term.

SATURDAY MORNING, NOV. 13, 1880.

EAST OF THE CASCADES.

The rapid increase of the vote of our eastern counties is one of the indications of their remarkable progress and development. In western Oregon there never has been anything that equaled the growth in population, industries and wealth which is now witnessed in our eastern counties, and particularly in the counties of Wasco and Umatilla. Unfortunately our system of making valuations of property for taxes does not indicate the actual wealth of any part of the state, so that figures and comparisons based thereon are almost worthless. But the census, which gives true figures as to population, and the vote thrown in those elections which are important enough to call out the voting strength of the country, furnish no bad basis on which to form a judgment of the progress and development of each locality. It was doubted by many, when the great increase of the vote of our eastern counties was witnessed last spring, whether it indicated a permanent population. But the presidential vote recently thrown in those counties settles it. This vote goes far beyond even that of last June. Wasco and Umatilla are now more populous counties than Linn and Lane. Union and Baker also, as soon as they get railway communication, which will be had within a year, will immediately outstrip any of the agricultural counties of western Oregon. It will be no great while until the population of our eastern counties will exceed that of the whole agricultural section of the Willamette valley, and perhaps of Rogue and Umpqua valleys thrown in. Even greater growth, taking the section as a whole, is witnessed in Eastern Washington. Increase of population and of industry in all the counties in that portion of the territory is remarkable for the Pacific northwest where heretofore progress has been so slow. Last year the population of Eastern Oregon and Eastern Washington was about equal. But we think the population of the latter will soon exceed that of the former section. The latter has more diversity and a greater amount of agricultural land. But the resources of either division are as yet scarcely touched. Lands in endless extent yet await occupation. Railroad building, which is being pushed rapidly in both divisions, will give them prodigious development. Soon there will be a larger population in Oregon and Washington east of the Cascades than west of that range. Timber, the one great thing heretofore so much wanted, will soon be supplied from the Cascade mountains by rail. Lumber will be transported to all parts, for a distance of five hundred miles or more. Thus the railroads will now soon overcome this great drawback to extension of settlement. Progress already witnessed in that section is nothing in comparison with what it will be five years hence. There are many people of Western Oregon and Washington who as yet scarcely realize the vast importance to which this eastern division is already attaining, and still less what the future will do for it. The time is not far distant when much the larger part of the products of the industry of the Pacific northwest will come from beyond the Cascade mountains, and when a populous and prosperous community there will contain within itself all the conditions which make a great and happy people. Wonderful changes are now in progress, and a few years more will effect changes more wonderful still. We shall see the vast region which we used to think a desert country the home of the larger part of our population and the seat of the greater share of our productive industry. Already the change is wonderful indeed from that time, not so very many years ago, when the Willamette valley was regarded as including pretty much all the Pacific northwest that was worth anybody's consideration.

THE ASSOCIATED PRESS.

"The false news of the lying associated press" is still a theme with organ-grinders who haven't yet learned the result of the presidential election. They think it indeed a pity that the associated press gives a suffering public nothing it can depend on. But suppose, for instance, the associated press had made itself the agent of Barnum and Hewitt in disseminating forged documents, hiring and paying for perjury, and helping through such agencies in the general management of the late "reform" campaign, would such course have been entitled to respect and gratitude? Suppose its dispatches had been like those sent by Barnum to this coast and printed here in the lowest organs of partisan degradation for truth and fact,—perhaps they would have done undying honor to its reputation as a bureau of news—and perhaps not. Reduced to a simple statement, the complaint against the associated press in connection with the late campaign, is that it refused to make itself the ally of forgery, perjury, and false claims and pretenses. It preferred to give the news. Upon nothing in relation to the campaign was its information at fault. It saw that General Hancock was not going to be elected, and said so;—and he wasn't elected. It exposed the Morey forgery on which the democratic managers staked the contest and the very existence of their party; and the forgers and perjurers are now confessing their crimes. If the associated press did not help the democratic party, the great reason was that the party managers pitched their battle on grounds which repelled all assistance that common regard for decency and truth could render. The associated press is a news bureau. It is not an instrument of forgery, perjury, and desperate partisan villainies. It is an agent of morality, and not an agent of falsehood, calumny and crime. If it has become any man's enemy because it has told him the truth, so much the worse for that man. In that case he cannot get into harmony with the truth of events, as reported by the associated press, a moment too soon.

COSTLY DEPENDENCIES.

It would seem that English statesmen and taxpayers were beginning to calculate in a business way the cost and use of Canada, and to ask themselves whether the mother country has not more to gain than lose by allowing the Dominion to cast loose from its moorings and shift for itself. This at least is to be inferred from the drift of a recent article in the Contemporary Review, which declares that the existing relations between Great Britain and her American dependencies impose grievous and scarcely tolerable burdens upon the parent state. It is pointed out that in the matter of tariff the Canadian Dominion has been the most hostile to Great Britain of all its colonies, the duty levied on the principal manufactures ranging from twenty to thirty per cent. By this tariff British trade is not only shut out from the colonies themselves, but from those vast western lands which the mother country won by conquest, or by vast expenditure of treasure. The original cost of Canada to Great Britain, through the war which ended in 1762, is placed at $400,000,000, which sum, at the low rate of three per cent. interest, would now reach the enormous figure of nearly $15,000,000,000, or four times the present total of the British national debt. It is further computed that the annual amounts expended on account of Canada, since the date mentioned, would now fall but little short of another thousand million dollars. Towards refunding these disbursements, or paying annual interest accruing on them Canada has never contributed a dollar. Even the money lent for the Welland canal has never been repaid. Again in 1867 Great Britain guaranteed $15,000,000 to Canada for building a railroad from Riviere du Loup to Truro; in 1869 there was a further bestowal of $1,500,000 for the purchase of rights in Rupert's Land; in 1873 there was another guarantee of $15,000,000, partly for the Pacific railway and partly for the improvement of canals—every one of which sums has been left outstanding. And as regards private investment, it is well known that immense sums of British capital have been sunk in such schemes as the Grand Trunk and the Great Western railways of Canada. In view of facts like these it has become abundantly evident that the pet American dependency has indeed proved an expensive luxury to England. In fact it is by no means certain that Great Britain would not have been the gainer had Canada gone with her other American colonies at the time of our revolution.

NO GREAT MATTER.

Republican politicians are speculating a great deal upon the chances of republican ascendency in the United States senate. The matter is one of no practical importance. After March next the democratic majority in that body will not exceed two, at most. Since it is margin will be so narrow and since the republicans will have the house and the presidency, there is no need to worry about the senate. In many respects it will be better for the country and for the republican party that a divided responsibility should exist. The country wants no political legislation. The republican party wants none, and therefore the democratic preeminence in the senate will prove a matter of no consequence. The late contest was not waged by the victorious party to secure new political legislation. It was simply a fight to preserve what had been gained during the long struggle of twenty-five years. All this had not only been menaced but openly attacked by the democratic party, and the fight of the campaign was to check this aggression. It succeeded perfectly. With this the republican party is for the present content. No doubt there are politicians who are eager to see the senate republican in order that they may have a chance at the official positions under the control of that body; but as the desire of a dozen or twenty men to get office is not a matter of national importance, the country at large need not worry about it.

Long ago THE OREGONIAN learned that it was not worth while to trouble itself with making replies to that uncandid dullness which exhibits itself through so-called newspapers whose only energies are expended in efforts to misrepresent it. There are not a few such papers and one and all they seem incapable of any effort except that of carping at THE OREGONIAN, distorting its statements and then attempting replies to their own folly. Among them is the Albany Democrat. It is as little worth while to expose that paper's clumsy fictions as to do the like for any other paper of its kind. But for once we depart from the usual rule. "Last year," says the Democrat, "THE OREGONIAN was for free trade and opposed to Chinese labor. Now it is for high protective tariff and Chinese immigration." This is gratuitous lying. THE OREGONIAN has expressed itself neither for high protective tariff nor for Chinese immigration. It is, in fact, opposed to both, has often said so and expects to say so on every fitting occasion in future. How many columns the Democrat fills every year by falsely asserting that "THE OREGONIAN says so and so," and then proceeding to answer its own drivel with more drivel, nobody could easily tell, but the string, if the rule were laid on it fairly, would stretch out almost to the length of some of those state printing measurements on which the legislative committee reported.

Barnum and his pals seeing the toils of the law drawing closer and closer around them and hearing the mutterings of public indignation met in secret conclave last night and issued an address to the country, in which they endeavor to shirk the responsibility of any connection with the villainous forgery scheme, of which they would have boasted had it been successful. No more fit ending to the campaign which Barnum has conducted could be made than is made by this attempt to crawl behind the poor old epileptic Morey and the thug O'Brien and disclaim their own responsibility in the shameful business. The address is a virtual admission on the part of the committee that the proof of the forgery is full and conclusive.

The Alta (San Francisco) prints the following table, showing the number of inhabitants in each of the American states and territories west of the summit of the Rocky mountains, in June, 1880, and in 1870, with the percentage of increase in ten years:

States, etc.	1880.	1870.	Per ct.
California	864,686	560,247	55
Oregon	175,535	90,923	94
Utah	144,000	86,786	67
Washington	74,713	23,955	210
Nevada	62,500	42,491	47
Arizona	41,580	9,658	350
Idaho	30,000	14,999	100
Totals	1,399,204	829,058	[illegible]

The total gain is about 570,000 in the ten years, or an average of a little more than six per cent annually.

The dispatches have referred at different times to the "indorsement" on the back of the republican tickets voted in the late election in New York. This indorsement was merely to designate whether the ballot was for president, judicial, city, or county officers, and was not in any way in contravention of the election laws of that state or of the United States, as will be seen by reference to files of late New York papers, both democratic and republican.

The republican parade last night wasn't much but the count of votes on Tuesday night of last week showed that republicans do a great deal of voting.

PATRONIZE

HOME INDUSTRIES!

PIONEER

White Lead.

REASONS WHY IT SHOULD BE PREFERRED TO ALL OTHERS:

First—It is STRICTLY PURE. It is WHITER, is FINER GROUND, is FRESH, has BETTER COVERING POWER, is MORE DURABLE and is LOWER PRICED than any foreign or imported brands.

The IMPORTED LEADS are OLD, are DRY and HARD, COVERED WITH SKINS. The OIL IS SOAKED INTO THE WOOD, and a very LARGE QUANTITY OF OIL, which is HIGHER COST than the Lead, MUST BE ADDED to make them fit for use, and thus making it cost, at even market prices, at least 10 per cent. more than the PIONEER.

Second—The PIONEER LEAD is strictly a HOME MANUFACTURE. EVERY DOLLAR SPENT IN ITS MANUFACTURE IS DISTRIBUTED ON THIS COAST to the MINERS, SMELTERS and REFINERS. MECHANICS, FARMERS AND LABORERS.

The LEAD ORE is mined on this coast.

The PIG LEAD is smelted and refined on this coast.

The POTS, MACHINERY and other appliances are made on this coast.

The MECHANICS and LABORERS are our own population.

The SEED from which the OIL is extracted is GROWN on this coast.

The OIL is MANUFACTURED on this coast by the PACIFIC OIL WORKS, and of a quality superior to any made elsewhere. GUARANTEED PURE and FREE FROM ADULTERATION with cotton seed, mustard seed and Fish Oil, SO COMMON with ALL THE EASTERN OILS IMPORTED.

The manufacture of the PIONEER WHITE LEAD EMPLOYS constantly ONE HUNDRED MEN.

The manufacture of the Oil by the PACIFIC OIL WORKS EMPLOYS constantly FIFTY MEN.

THE MINING, SMELTING, REFINING, FOUNDRIES, MACHINE & IRON WORKS, POTTERIES, FARMERS and other dependencies, EMPLOY, in addition, an ARMY OF MEN, all CONSUMERS, contributing to each other's welfare.

The FOREIGN or IMPORTED BRANDS of Lead and Oil CONTRIBUTE NOTHING to the WELFARE or PROSPERITY of THIS COMMUNITY; on the contrary, the PATRONAGE OF THEM results in the RETIREMENT from the State of YOUR CAPITAL and DEPRIVES THE MANY classes aforementioned of SUPPORT.

Every dollar spent for HOME MANUFACTURES, and one so essentially a home manufacture as the PIONEER WHITE LEAD ADDS to the DEVELOPMENT and WEALTH of the COAST, and is a PUBLIC GOOD.

SATURDAY MORNING, NOV. 13, 1880.

WEATHER PROBABILITIES.

SPECIAL TO THE OREGONIAN

Washington, Nov. 13—12:30.—For Pacific Coast, fair partly cloudy weather.

CITY.

A Small Blaze.—Last evening at 11 o'clock a prolonged whistle from Weidler's sawmill at the northern end of the city, and the succeeding alarm of the fire bell, started the inhabitants of that portion. By common accord everybody exclaimed "Weidler's mill is on fire." In a few minutes the engines of the department, and hundreds of citizens were turned in the direction of the supposed fire. Three of the companies followed down the railroad track and succeeded in reaching a point a short distance below the mill yard. Here they were met by Chief Jordan who had just returned from the fire. The occasion of the alarm was that a small office which stands in the lumber yard, near the mill, took fire by some means. The danger was imminent but by very prompt and effective efforts the flames quickly subsided without any damage worthy of note. When the fire was first discovered some parties at the mill supposed that the whole building and lumber yard might be involved, turned on the whistle to apprise the department of the threatened danger. After a good long run the boys returned the engines to the houses without passing a drop of water through the nozzles.

Brothers Meet.—A curious manner in which long-parted brothers often meet occurred in this city a few days ago. Mr. A. P. Butler is a well known barber in the northern part of the city. An acquaintance of his at a hotel recently stepped up to a stranger and addressed him as Mr. Butler. "That is my name," said the stranger, "but how did you know it?" "You are Butler the barber, are you not?" "I am Butler, but not a barber," replied the stranger. "Well," said the man of disappointment, "you resemble the barber very much in fact." And the conversation which followed induced the stranger to seek Mr. Butler the barber, although he did not know he had a brother on the Pacific coast. He found the barber to be his own brother, whom he had not met for a space of eight years.

Temperance Meeting Entertainment.—An entertainment will be given at the rooms of the Y. M. C. A. this evening at 7:30. It will consist of an address by Col. Hawkins and the well known temperance lecturer, the Rev. Mr Gray, of The Dalles, on the question of temperance. Col. Hawkins' reputation as one of the most forcible speakers on the coast is well established. The Rev. Mr. Gray is an earnest and polished speaker. Music by the Glee club and other amateurs. A rare treat is promised, which should attract a full house. A small admission fee will be charged at the door. The temperance people and public generally are cordially invited to attend.

Steamer.—Work on the new steamer which is being built by James W. and Vin Cook, above the sawmill, is being pushed toward completion as rapidly as possible. A large force of men are employed from morning until night, and when completed she will be one of the finest boats on these waters. During the fishing season she will be used in carrying salmon from their new fishing station to their island to their packing establishment.

Runaway Team.—Thursday afternoon, says the Times, while Harry Brewster was out taking a ride his horse became frightened on First street and ran away. Mr. Brewster was thrown very heavily on the street and rendered insensible, while the horse and vehicle sailed away toward Washington street. Mr. Brewster was carried into an adjoining store and brought back to consciousness. He received a severe shock and several bruises.

Social.—The social given last evening by the ladies of the First Congregational Church for the benefit of the Sunday school library was well attended and proved enjoyable to all. The proceeds were quite substantial.

Soundings.—Mr. R. A. Habersham of the engineer's office, this week changed the range at St. Helen's bar so that they cross the center of the deepest channel. There is from 18 to 22½ feet of water on the bar.

Arrived.—The ship Wildwood arrived at Hull yesterday from this port. This vessel sailed from Astoria on the 12th of July. Her cargo consisted of [illegible] bushels of wheat, valued at $40,000.

Undergoing Overhauling.—The steamer Lurline on the Vancouver route the Vancouver having been withdrawn for a thorough overhauling, [illegible] of the machinery.

Court.—There was no state circuit court yesterday, but will convene, however, this morning.

PRECAUTIONS AGAINST SMALLPOX.

The following letter is self-explanatory and it [illegible] for the public generally to heed Dr. [illegible] suggestion relative to vaccination:

Astoria, Nov. 11, 1880.

Editor of the Oregonian:

I noticed an item in The Oregonian recently relative to the necessity of examining passenger steamers from San Francisco during the epidemic of smallpox.

I would state that every passenger steamer from San Francisco is examined by the health officer at Astoria, whether smallpox is known to exist in San Francisco as an epidemic or not. In case of the examination, which now will be more thorough than ever if possible, a thorough examination is made of every steamer before leaving San Francisco.

Every precaution will be taken to prevent the spread of smallpox, and the steamers quarantined if necessary, yet vaccination cannot be too strongly urged on the people at the present time as the only safeguard. Those who may possibly be exposed to the smallpox in San Francisco a few days before the sailing of the steamer cannot by any possible precaution be detected, either on board the steamer in San Francisco or at this port. Respectfully yours,

AUG. C. KINNEY, Health Officer.

The Daily Oregonian.

SATURDAY MORNING, NOV. 13, 1880.

RELIGIOUS.

Proceedings of the Annual State Co-Operation of the Christian Church.

Third Day.

Morning session was opened with the reading of Heb. 2d chapter, by Frank Martin, Lafayette; singing and prayer by Bruce Wolverton.

Minutes of the previous day's session were read and approved, after some corrections.

Verbal reports were made from the churches at Salem and Monmouth.

Committee on church reports recommended a form for adoption by the association.

Motion made and seconded to adopt.

Subject was discussed at length by Brethren S. H. Moss, J. Todd, J. W. Cowles, E. Barton, A. Blaney, Bruce Wolverton and P. R. Burnett, and others.

Motion passed and the report adopted.

On the subject of the apportionment of delegates from the various congregations to represent them in the future meetings, the following motion prevailed: "That from each congregation two delegates be chosen at large and one for every thirty members and fraction thereof exceeding twenty."

The subject of that of Sunday schools was taken up. The discussion of this subject manifested a great anxiety on the part of all to see a more general interest taken in this part of the church work. Members thought that the way to build up a church was to organize and maintain a live Sunday school. The fact that the young and rising generation need special moral restraints was a great argument for implanting in the young minds and hearts truths, religious, Christian truths, which will make an impression in youth which can not be made at other times in life. The Sunday school belongs to the church and not the church to the school, nor yet the school to the world. Therefore ought the church to appoint all the officers and teachers, and the older members most especially to attend and lend their assistance. One said his observation taught him that in the Sunday schools he had visited lately, the secret of the successful schools was the attendance and supervision of the older members of the church.

Recommended to the careful attention of the missionary board, and that the board regard these interests in the selection of evangelists.

Motion prevailed to appoint a committee on resolutions, consisting of brethren Burnett, Cowles and Martin.

Session closed with prayer by Bruce Wolverton.

[At the close of the morning session the delegates and friends enjoyed, at the hall, the "good things" in a repast, prepared by the lady members of the church.]

Afternoon Session.

Session opened with prayer by Rev. A. Blaney.

The committee on resolutions made the following report:

Resolved, That the thanks of this convention be tendered as follows:

1. To the members of the Portland church for their kind entertainment during the session of the convention.

2. To the O. & C. R. R. Co., the W. O. R. R. Co., the O. R. & N. Co., the Oregonian Railway Co., limited, and the Independent Steamboat Cos. for favors extended in granting free return tickets to delegates.

3. To the Good Templars for the use of the hall on the evening of their regular meeting.

P. R. BURNETT,
J. W. COWLES,
F. MARTIN.

Report was adopted.

Motion prevailed that the secretary be directed to prepare a synopsis of the minutes of this meeting consisting of the most important features, such as the report of the missionary, report of treasurer, of committee on "lot fund," also the names of the members of the present missionary board.

A vote of thanks was extended to Mrs. A. Blaney for special favors.

On motion the co-operation adjourned.

Though the attendance of delegates was not so large as usual, harmony and peace prevailed throughout, and all go home resolved to advance the cause of Christ, having their faith strengthened and their zeal renewed by the Christian association and wise counsel. Especially do the members desire the advancement of the missionary cause. Though but little has been done the past year on account of the effort to raise a fund for a church lot in Portland, yet the liberality of the brethren and the friends of the cause in this work, and their promptness to respond to such calls for help, assure the board that much good can and will be done the ensuing year, to which they now address their best energies.

Members of the missionary board (elect) met at 9 A. M. and organized by the selection of J. W. Cowles, McMinnville, chairman; Bruce Wolverton, Portland, secretary, and H. A. Johnson, Salem, treasurer.

Motion prevailed that the secretary be instructed to address, as contemplated in the "missionary plan" circular letters (with thanks for subscriptions and collections) to some discreet and zealous member of each congregation and residing in the neighborhood where there is no congregation. The same to be sent out the first week of December, and requesting that the person so designated should make report by December 20th. These will be announced the first of January, when if sufficient funds shall have been paid and pledged, one or more evangelists will be immediately employed to devote their whole time to the work of preaching and with the assistance of the brethren and the blessings of Almighty God of advancing Christ's cause and kingdom. After discussion of other subjects of minor importance, the board adjourned, subject to the call of the chairman.

REAL ESTATE MARKET.

The following special report of the real estate market is furnished THE OREGONIAN by Clark & Upton, real estate agents and architects:

Already the market begins to revive. The restoration of public confidence has manifested itself by marked increase in the number of real estate transactions. During the past week twenty-four deeds have been recorded as against an average of about twelve per week for the preceding four weeks. During that period there was no other cause for the contraction of operations, than the public excitement pending the election, and perhaps some doubt as to the effect that possible political changes might have upon the money market. The ending of these disturbing causes has brought a rebound of confidence and business. The inquiries of buyers since the 3d inst., have been fully four fold as many as during the preceding weeks. And indeed there is abundant reason for confidence in Oregon. To no state in the union are so many companies of enterprising capitalists turning their attention. The railroad kings of America, and foreign corporations as well, are running a race for the occupation of a field which is justly regarded by them as one of the finest the world offers. The millions required for the construction of these works are readily forthcoming, and their rapid progress is stimulating industry and increasing production throughout the length and breadth of the state. Such being the case it would be more than surprising if the general public did not recognize the fact that we, as a state, have entered upon an era of prosperity, which bids fair to grow and increase for years to come. And it would be still more surprising if there were any lack of confidence in real estate values.

The total amount shown on face of deeds recorded this week is $24,502 12, divided as follows: Country and suburban, $4817; Couch's addition, $11,767 50; south of the north line of Caruthers' addition, $1000; scattered through other parts of the city, $1281, and East Portland, $5341 62.

BOSTON WOOL MARKET.

[SPECIAL TO THE OREGONIAN.]

BOSTON, Nov. 12.—The wool market continues somewhat excited with considerable pressure to buy on part of manufacturers and indifference about selling on the part of holders, as it is generally believed higher prices will be obtained at an early day. The stock of desirable wool on the market, at current rates, is comparatively small, as more or less have been withdrawn since the upward tendency of prices commenced, and it will not be offered at present. All grades are in demand and partake of the upward movement. Medium wools that have been rather neglected are now much sought after, and delaine and combing have become so scarce that orders have been sent abroad. Sales of this week have been upwards of 350,000 lbs, and include Ohio, Pennsylvania and West Virginia fleeces at 47@47½, XX and XXX, with very little good XX is now to be had under 50c; medium and No. 1 Ohio have been selling at 48@50c, and are now firm at the latter rate. Michigan and Wisconsin fleeces range from 43½ to 41½c, with sales to some extent at 44½c, and are now generally held at 45c, with very small stock. Fine delaine has been sold at 47@47½c, and most desirable lots are now held at 50c, and medium and No. 1 combing at 50@52½c, and choice No. 1 combing would bring 55c. In Kentucky combing there have been sales at 49@52½c, and other unwashed combing and delaine has ranged from 31 to 40½, the latter price for a lot of West Virginia. Unwashed wools have been in demand and are firm at 18@25c for coarse and carpet, 25@33c for fine, and 34@37c for medium 500,000 lbs of Kentucky and Indiana selling at 34½c. The advance of the week has been from 1 to 2c ⅌ lb on nearly all grades. Sales of California have been 1,000,000 lbs at 25@34c for spring and 12@15c for all. Pulled wools have been in demand and prices quite firm. There were considerable sales of super at 40@47c, up to 50c for very choice, and X at 40@45c. Foreign wools in better demand, and sales of Cape and Natal at 30@34c; Australian and New Zealand 43@48; Montevideo 35@38½, as to quality. Carpet wool scarce and firm, with sales of 100,000 lbs Mediterranean at full prices.

NEW YORK FREIGHTS AND MARKETS:

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEW YORK, Nov. 12.—The clipper freight market is rather more active than for a long time and there is a prospect of the remainder of the season being lively. Offerings are chiefly dead weight including 1000 tons of sugar machinery a lot of lighthouse material, also iron, pig lead, cement, etc. The ship C. C. Chapman is finishing to-day and will sail to-morrow. The L. Schepp will follow, and will be succeeded by the Seminole. The Logantown will be in the berth in a day or two.

Rates continue steady at the last quotations. Overland freights have held on remarkably for the season and shipments are still large, including 1550 cases canned goods, 200 bags buckwheat flour, 75 boxes soap, 440 boxes raisins, 25 cases sauce, 1400 packages starch, 100 kegs salt fish, 113 bbls currants, 40 packages dried fruit, 13 firkins butter, 50 cases olive oil, 1483 packages tobacco, 501 cases baking powder, 175 kegs herring, 25 cases mackerel, 50 cases milk, 150 pigs lead, 54 packages gunpowder; also, 5061 bars railroad iron.

SAN FRANCISCO TONNAGE MARKET.

[SPECIAL TO THE OREGONIAN.]

SAN FRANCISCO, Nov. 12.—The tonnage market is in rather a peculiar position, one not altogether satisfactory either to ship owners or exporters. On one hand, the tonnage in port is in high supply, disengaged in the list footing up less than 10,000 tons, while the loading list does not greatly exceed 35,000 tons, although apparently larger, owing to the number of ships loading and waiting for crews. These figures are extraordinarily small for this season of the year, particularly in view of the fact that the amount of wheat to go forward is in excess of previous seasons, and that we are fully a month behind in our exports owing to the backwardness of the season, and the reluctance of producers showed to part with their grain during the first months of the new crop year. On the other hand a fleet of twenty to twenty-five vessels are fully due,—a fact that induces exporters to hold off in the hope of obtaining concessions. Another cause for the conservative action is the scarcity of sailors which is the cause of annoying detentions to ships. Business therefore has not shown that activity usually displayed at this season. Two vessels have been taken up during the week at extreme rates, namely £3 5s for wooden and £3 17s 6d for iron vessel, for orders in each case. It is generally believed there were special causes for this action and that the rates were above the market. The latest charters go to confirm this, but at the same time shows an advance over previous rates. Excepting the two mentioned, about the latest charters reported are the ship Thomas M. Reed, 1950 tons, wheat to Liverpool direct, £3 21s 3d; bark Spartan, 650 tons, barley to New York, private.

DR. C. McLANE'S

CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression, DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane,* spelled differently but same pronunciation.

DR. PAUL M. BRENAN

The Most Successful Physician on the Pacific Coast,

IN THE TREATMENT OF ALL CHRONIC AND DIFFICULT DISEASES.

DR. BRENAN WILL GUARANTEE TO CURE any form of disease of the generative organs or private disease.

He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

such as SPERMATORRHEA, or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two-thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper Physician in time, from a sense of modesty, and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted, until death secures a welcome messenger to carry them out of their miserable existence.

Everything strictly confidential under all circumstances.

Lost manhood perfectly restored.

Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail.

Consultation Free, and a list of printed questions sent to those living at a distance who cannot consult him personally. Enclose postage stamp for list.

Office—No. 33 First street, between Oak and Pine.

Office Hours—From 10 to 12 A. M., 2 to 5 and 7 to 8 P. M.

All letters of professional business must be addressed to Dr. Paul M. Brenan, & Co., Portland, Oregon.

TO

Sportsmen and Tourists.

THE UPPER CASCADES AND VICINITY, AT the present season, offers the finest inducements of perhaps any locality within a radius of 200 miles of Portland. Lake, brook and mountain trout await the disciples of the "gentle art," whilst the followers of Nimrod can foot with the festive bear and frolicsome cougar to their heart's content, whilst deer are not unknown.

An elegant and comfortable hotel (The Borthwick House) is now established, with Portland prices, and reliable guides, dogs, boats, guns, and everything necessary for an outfit, can be had within ten minutes.

The glorious mountain scenery, elegant river views, and enormous government works, also, will amply repay a visit.
